Renu Ghosh | D 240

THE KIDS' CLUB is the brainchild of Mrs. Renu Ghosh, an esteemed resident of Sarvodaya Enclave, who has interacted with children of all ages during her long years of working at UNICEF. In collaboration with the RWA, she hopes to revive the lost art of Playing in the Park.

On 3rd April, the colony was abuzz with activity as a meeting had been called for KIDS at the Central Park. Residents were amazed to see 30 children raring to go. There were ideas galore and enthusiasm oozing out of both children and volunteers alike.

It was decided that there would be something for everyone—little children and teenagers too. The little ones plan to enact a street play, on Cleanliness, that will be directed by a professional. Residents have come together and offered their valuable time for Choreography, music, dance, décor, publicity and hands on management of the children's initiatives. The teenagers decided to have a friendly football match replete with demarcated grounds and professional coaching.

Clean-up after Holi Initiative to create social responsibility among children
